SUPERVISORY PATENT EXAMINER

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Demers on 1/3/2007.

The application has been amended as follows:

In claim 1, the structure represented by:

has been deleted and replaced by the structure:

In claim 1, the last line of the claim which reads:

“Z is hydrogen, CHWOH, CHWOCOW’, SW, or CH₂aryl”; has been deleted and replaced by the phrase:

“B and B’ are independently O or NH; and

Z’ is hydrogen, CHWOH, CHWOCOW’, SW, or CH₂aryl”.

Art Unit: 1623

The following is an examiner's statement of reasons for allowance: the prior art is not seen to teach or fairly suggest the claimed compounds, specifically, compounds being 2'-substituted and having a hydroxy group in the 2'-position which also have hydrazines in the 6-position of the purine base, which is not substituted in the 2 and 8 positions of the purine base. The closest prior art is seen to be LaColla et al. of record, who fail to teach hydrazines on the base.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
